Notes:

1. Verification based on NHC best track database as of 5/12/26.
2. Verification sample is homogeneous with best-track 5-day CLIPER, and includes subtropical storms.
3. 36-h forecasts began in 1988.
4. 96- and 120-h forecasts began in 2001, but were not publicly released until 2003.
